LAFD Fire Protection Equipment Performance Report F-340R Instruction 12.04.2014
F-340R FIRE PROTECTION EQUIPMENT PERFORMANCE REPORT
INSTRUCTIONS
Initial Test

INITIATED BY: Chief's Regulation No. 4 Certified Tester
 NUMBER OF SECTIONS: I-IV Required (Section V- "Supplemental Information" Optional)
 PERIOD RETAINED: Five years or until next certification, in Fire Station or Inspection Unit file
 FORWARD TO: Fire Station or Fire Prevention Unit responsible for the maintenance of all inspection records for the occupancy
 REFERENCE: L.A.M.C. L.A.M.C. 57.107.6, Chief's Regulation No. 4
 ROUTING: Certified Tester to Fire Station or Fire Prevention Unit

INITIAL TEST: Certified Tester completes a separate F-340R for each system tested and submits the original and one copy directly to the Fire Station or Fire Prevention Unit responsible for the maintenance of all inspection records for the occupancy concerned and a second copy to the Chief's Regulation No. 4 Unit. The Fire Station or Fire Prevention Unit shall send a copy to the Responsible Party.

The Fire Station or Fire Prevention Unit shall contact the Responsible Party to discuss the results of the test. If system defects are indicated, the Fire Department shall direct the Responsible Party to repair all system defects immediately through the use of a Notice of Violation.

- APPLICATION:**
- This form is used by Chief's Regulation No. 4 Certified Testers to document test results of fire protection equipment performance per Chief's Regulation No. 4 and L.A.M.C. 57.107.6. The form provides certification that the required testing has been performed.
 - This form shall **NOT** be initially used to require repair of equipment known to be defective and/or inoperative prior to the start of the test. Fire Department personnel shall issue a "Notice of Violation" (NOV) to the Responsible Party to repair such equipment. Subsequent testing shall be required.
 - This form shall **NOT** be used to document fire code violations or to evaluate or verify the adequacy of the design of ANY fire protection system and/or equipment.
 - The role of the Certified Tester is limited to testing the performance of fire protection equipment and submitting the results to the Fire Department. It is not intended to give the Certified Tester the authority to cause anyone to take action with regard to the test results.
 - Changes, alterations or additions to the format, appearance or content of this document are strictly prohibited.
 - Except for gray shaded areas, all entries shall be computer generated or type written (except for signatures).
 - All submitted reports shall be stapled in the upper left hand corner.
